

A better way to survey...

Unlocking greater earnings potential for RICS Surveyors, while
improving their worklife balance.

Peer | King
Surveyors®

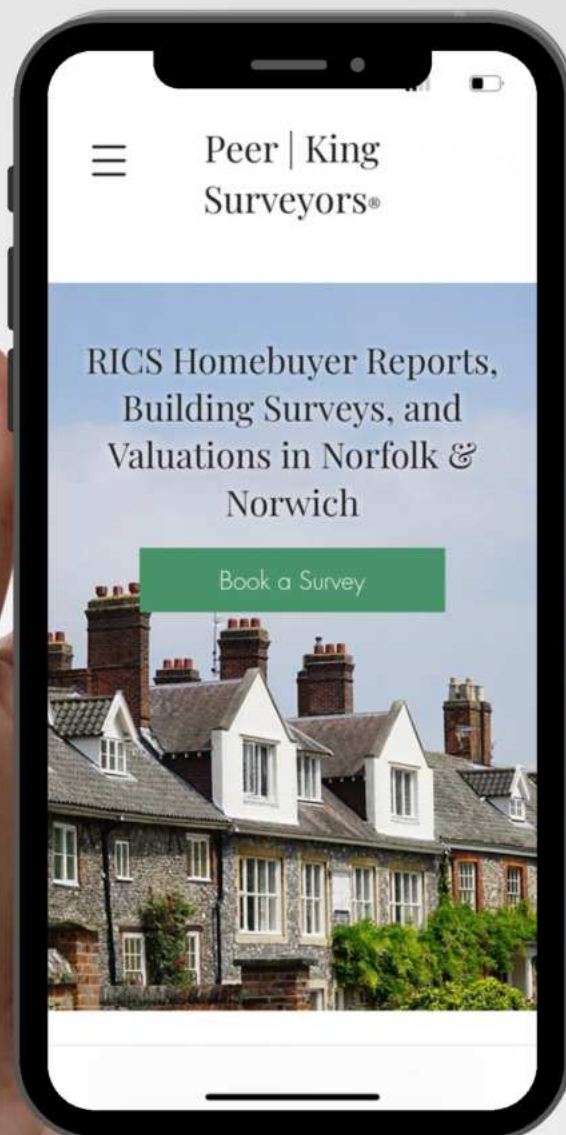

Who are we?

Peer | King Surveyors is a boutique residential surveying practice based in Norwich, covering the city of Norwich and the surrounding East Anglian counties of Norfolk, Suffolk, Essex, and Cambridgeshire. We act as the Buyer's Champion in their home buying process, helping them minimise uncertainty and avoid making costly mistakes.

As an established firm with a sterling reputation and 5* Google rating, we have national growth aspirations and are currently awarding licenses to AssocRICS and MRICS surveyors looking to operate independently in Suffolk, Lincolnshire, Essex, and Cambridgeshire.

We were founded on the principle of working smarter, not harder, and have harnessed technology and efficient practices to make our surveyors more effective but less busy. Our work is high value/low volume, and our support team is second-to-none. As a Peer | King licensee you can leverage your existing skillset and qualifications for higher earnings, greater flexibility, and lower risk than by operating in any other way in the industry.

Why join us?

Operating as a Peer | King Licensee Surveyor combines the flexibility and earnings potential of self-employment, with the security of working for a firm and having a team behind you...

Higher Earnings

Generate earnings that are greater than if you were a PAYE employee of a firm. Unlock the potential to earn more as a Surveyor - even if you are newly-qualified.

Greater Flexibility

Benefit from significant flexibility and control over your own hours. Create a work/life balance that aligns with your individual priorities and aspirations.

Lower Risk

Reduce your risk by teaming up with an established brand that books your clients, provides umbrella PII cover, and reduces your start-up and operational costs.

More Support

Benefit from decades of surveying experience and access to a supportive and encouraging team to help you with everything from defects diagnosis to client care, as well as provision of your annual CPD.

... It's a win-win hybrid between being an employee and starting your own practice.
